

LOO ANTI-SPLASH: ALIENS ARE DISGUSTED BY HOW HUMANS POOP

Length: Approx 1.5 Minutes

–Int. Thaddeus's Bathroom - Day

Thaddeus, mid-30's, is on the toilet looking at his phone. He puts down his phone abruptly, and looks directly into the camera breaking the 4th wall.

THADDEUS

Aw man! Don't you hate it when the toilet water splashes up on your butt?

Suddenly a spotlight beams through Thaddeus's window as he looks out terrified. A booming, supernatural voice is heard from outside.

ALIEN RICK'S VOICE (O.S.)

YES, IT IS THE WORST. THE WOOOORSSST!

Thaddeus gets beamed up out of his window (with his pants around his ankles and his privates blurred out) and into a flying saucer hovering outside.

–Int. Alien Flying Saucer - Day

Thaddeus is lying strapped down on a gurney in an all-white, room. A bug-eyed, green alien with long arms and long legs is looking down at him. The alien sniffs near his butt area.

THADDEUS

Please don't hurt me!

ALIEN RICK

HURT YOU? I'm here to HELP YOU! Behold!

Alien Rick puts up his hands as a Loo antispash device hovers above Thaddeus to dramatic SFX, thunder/lightning are heard.

THADDEUS

NO, NOT THE BUTT PROBE!

The LOO Antispash device flies into Alien Rick's hand.

ALIEN RICK

Relax, dude. It's not a butt probe. It's a LOO Antispash Device, the latest in alien technology. It prevents icky splashback when you poop and cleans your toilet all at the same time.

An animation of a man sitting down on a toilet plays. Animated missiles get launched out of the man's posterior and plunge into the water creating big splashes which transport bacteria

(glowing red particles) onto the sides, rim, and under-section of the toilet seat, as well as on the man's posterior.

ALIEN RICK VOICEOVER

When you humans discharge fecal matter, the splashback can be devastating.

An animation shows a clean toilet with the LOO Antisplash Device flying into it.

ALIEN RICK VOICEOVER

To combat this poopocalypse, you simply insert the LOO Antisplash Device into your toilet.

An animation of a man sitting down on a toilet appears. The LOO Antisplash Device dispenses gel into the toilet and covers the water with foam. Poop drops into the bowl and gets absorbed by the foam with no splash.

ALIEN RICK VOICEOVER (CONT'D)

It has an intelligent sensor which automatically dispenses cleaning gel into your bowl when you sit. The foam covers the water and absorbs the impact of your poop nuggets preventing splashback.

CUT TO: ALIEN lets Rick off the gurney and slaps his ass heartily.

ALIEN RICK

So your ass will be as dry as a maltose cracker.

An animation shows the foam trapping odors, releasing refreshing fragrances, and leaving the toilet bowl sparkling clean.

ALIEN RICK VOICEOVER

The foam also traps odors, releases refreshing fragrances, and cleans your toilet with every dispense. Say goodbye to sh*tty butts!*

*(Writer's note: this should be *bleeped* out)

THADDEUS

Wow, your obsession with human poop has really changed my perspective.

CUT TO: Alien Rick appears over a monotone backdrop with the LOO Antisplash logo, with the Antisplash Device and the LOO-BUT-CLEAN Toilet Gel hovering next to him.
